

## ILC BlueDot

BlueDot Plus is the new bean to cup coffee machine that enriches and widens the Ultra Coffee Service range to cater for the OCS, Horeca and CVS market segments.

The new 7" touch screen display is extremely intuitive, customizable for an advanced, upgraded user experience.

The great flexibility and the many configurations are just some of its strengths: you can even fit two brewers (Espresso + FB) despite its compact size.

BlueDot Plus can be connected to the water supply in 3 configurations: internal water tank, direct water connection or both (Jolly solution).

Bigger size coffee and instant hoppers to reduce operations and make life easier are available as optional. BlueDot Plus, the perfect solution for your location!

### VERSIONS
